The Building Professionals

To WHOM IT MAY CONCERN

**RE: RICHARD JONES**

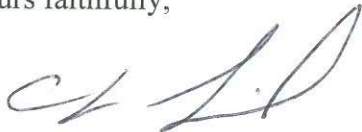

Our firm has worked closely with Richard Jones on two multi level unit buildings in Cliff Street, Yeppoon. The two buildings were constructed simultaneously and were situated adjacent to each other. The site was very challenging due to the steep terrain and lack of access. Because of the difficult nature of the site we were contracted to set out all walls, columns and structural elements.

Apart from the early bulk earth works and final stages of the project Richard was the person who instructed us on what was required. Richard worked with my staff to understand the plans and CAD drawings and find and resolve any discrepancies prior to set out and construction.

It is my opinion that Richard has an understanding of the systems and procedures involved in the survey and set out of a building even on a difficult site.

If you have queries please do not hesitate to contact this office.

Yours faithfully,

Charlie Finch  
Cadastral Surveyor
