

3<sup>rd</sup> February 2017

To Whom It May Concern,

My name is Nick Crowle, Structural / Civil Engineer B.E. (Structural). I am a Structural Engineer at Northern Beaches Consulting Engineers Pty Ltd in Dee Why, NSW.

This letter is to confirm that our Company has worked with Richard Jones of Kaleidoscope Constructions on the following residential development projects:

1. Site address: 6-8 Rickard Street, Rodd Point  
Position: Foreman/Supervisor  
Project Description: Alterations and Additions  
Approximate Value: \$1,400,000
  
2. Site address: 40 Ingham Avenue, Five Dock  
Position: Foreman/Supervisor  
Project Description: Alterations and Additions  
Approximate Value: \$700,000

In Mr Jones' role as builder on these projects he was responsible for the supervision of all building works including adherence to engineers' instructions, council requirements and Australian Standards. He was required to communicate effectively with clients, consultants, regulating authorities, trade works and subcontractors.

I have found Mr Jones to be diligent in this role. He has always carried out his work in a highly professional manner, is well-organised and easy to work with.

During the progress of jobs and discussions with myself, Mr Jones displayed an understanding of what constitutes structural integrity and has showed an awareness of the various forces that affect structural integrity.  
Our company would be pleased to continue to work with Mr Jones to provide consulting engineering services as required.

If you have any queries, please feel free to contact me on 02 9984 7000.

Yours faithfully,  
**NB CONSULTING ENGINEERS P/L**

**Nick Crowle**  
Design Engineer B.E. (Structural)
