**ACCREDITED CERTIFIER**  
**BUILDING SURVEYOR**  
**PRINCIPAL CERTIFYING AUTHORITY**

3 May 2010

To Whom It May Concern

I write this reference for Richard Jones with whom I have had a professional relationship for some 15 years. My initial involvement with Richard was through my position as Building Inspector with Leichhardt Council where I inspected sites at which Richard was a supervisor.

For some twelve years now I have been self employed as a Private Certifier and Principal Certifying Authority and have inspected numerous other sites where Richard was carrying out the role of site supervisor. On all occasions I have found his workmanship to be of a high level.

I believe Richard is able to maintain his high level of workmanship and competence due to his "hands on approach" and overall knowledge of all aspects of the building site.

I have found that Richard has always been reliable, diligent, punctual and most obliging. He has demonstrated ability to organise many areas of building on both small and large projects. Richard is always cooperative to follow all instructions regarding any site I have certified with him.

I have no concerns in recommending Richard as I feel he would be an asset to any building site and I would recommend him to anyone seeking a quality Builder or Building Supervisor.

Yours Sincerely

Paul Pearce
