29th June 2009

To whom it may concern

This reference is regarding Richard Jones Site Manager at Pinnacle and
Panorama, Yeppoon.

I was brought into the project in March 2009 to act as the on site WHSO.
Richard was in charge acting as Site Manager.

Together with my Knowledge and past experience as a Site Manager and Richards
extensive knowledge of WH & S and Construction we both formulated a Site Safety
plan for a project that involved two towers of 6 storeys on the side of a hill
overlooking Yeppoon.

This project was inherently a Site Safety nightmare but I would like to take this
opportunity to Commend Richard for his managerial skills, foresight and constant
vigilance on this project regarding Occupation Health and Safety and I would
recommend his services to any future employer regarding this field and his natural
managerial skills as a Site//Construction Manager.

Richard has also just obtained his Senior First Aid certificate.

Should you require any more information please do not hesitate to contact me on
0435029848.

Yours Sincerely

William Hodder.
